FIVE CENTS THE COPY

## CHAIN OF FORMER TREASURERS ARE NAMED IN SUITS

Governor Small, Lieutenant  
Governor and Others  
Made Defendants.

PROBE IS A SURPRISE

Giant Fraud of 1917 Alleged  
In Bill Against "Big  
Five" Officials.

(By the Associated Press)  
SPRINGFIELD, Ill., Nov. 26.—  
"Suits for accounting against five  
former state treasurers, alleging  
shortages of approximately \$2,500-  
000, were started today by Attorney  
General Edward J. Brundage.

The suits cover the six terms pre-  
ceding that of the present treasurer,  
Edward E. Miller, and are directed  
against all state treasurers who  
held office between 1909 and 1921.  
State auditor Andrew Russell, who  
was treasurer twice during this pe-  
riod, is defendant in two suits.

The others involved in the suits  
are:

Governor Len Small, Lieutenant  
Governor Sterling, William Ryan,  
Jr., and Edward E. Mitchell.

Discoveries made through the in-  
vestigation of the state treasury  
which resulted in the indictment of  
Governor Small, Lieutenant Gov-  
ernor Sterling and Vernon S. Curtis,  
bank associate of Governor Small,  
last July furnished the evidence on  
which the civil suits were based, at-  
torney general's office announced.

Lieut. Gov. Sterling is defendant  
in a suit which alleges ten million  
dollars of state money was used  
by the treasurer, Len Small, and  
the late Edward C. Curtis, Sr., for  
their own personal profit, a loan  
which continued under the control  
of Curtis after Sterling, Small's suc-  
cessor, became treasurer.

**Contrived Big Game?**  
The bill alleges that shortly after  
Small became treasurer in 1917 he  
entered into a scheme with Curtis  
to use large sums of state money  
for their private game. Small, at  
the expiration of his term, the bill  
continues, removed from the treas-  
ury office books and records relative  
to deposits, loans and interest mat-  
ters.

SPRINGFIELD, Ill., Nov. 26.—  
The basis for the charges against  
Governor Len Small, Lieutenant  
Governor Fred E. Sterling and Ver-  
non Curtis, Grant Park, Ill., banker,  
was explained in the report of D. A.  
Brain, foreman of the Sangamon  
county grand jury which returned  
the indictments, as follows:

"From the evidence submitted it  
appears that the treasurer of the  
state of Illinois carries large daily  
balances and that during the ad-  
ministration of Fred E. Sterling  
those balances have ranged from  
\$22,000,000 to \$32,000,000. During  
the administrations of Len Small  
and Fred E. Sterling as treasurers  
of the state of Illinois, the law then  
in force in this state required the  
state treasurer to deposit all moneys  
received by him on account of the  
state in such banks as paid the  
highest interest rate. We find that  
both the letter and spirit of the law  
was violated. Instead of loaning the  
state money to all secure banks of  
the state, without discrimination,  
and to such of them as paid the  
highest interest rate, only a portion  
of that money was loaned in accord-  
ance with the provisions of the law.  
For the purpose of circumventing  
those provisions an ingenious scheme  
was devised and closely adhered to."

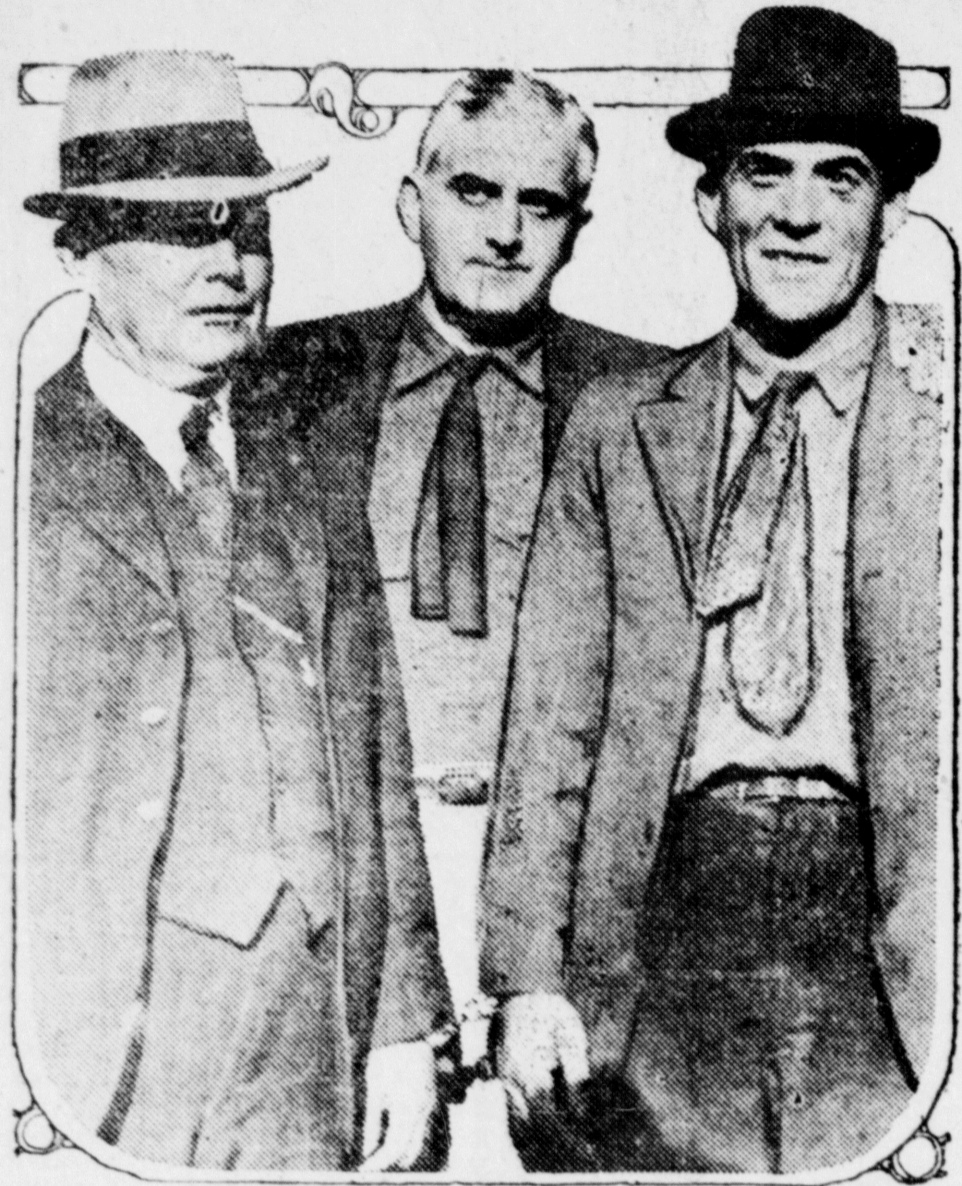

**Carried in Two Funds**

The grand jury statement goes on  
to explain that, beginning with Mr.  
Small's term as treasurer in 1919,  
the daily balances were carried in  
two funds, one denominated the  
"vault fund" and the other the  
"safe fund." The "vault fund," the  
books show, according to the grand  
jury, was loaned to some 300 banks.  
The so-called "safe fund" consisted  
of loans to the Grant Park Bank,  
the charter of which was owned by  
Vernon Curtis, president of another  
bank at Grant Park, Ill., a few  
miles from Governor Small's home  
at Kankakee.

"The so-called safe fund," the  
grand jury statement says, "repre-  
sented loans made to the so-called  
Grant Park Bank" which was for-  
merly a private banking institution  
which absolutely ceased to function  
as a bank after 1908. Although this  
purported bank was purported to be  
owned by a single individual, and  
not transact banking business  
whatever, and had no depositors  
other than the state of Illinois, yet  
it was given huge deposits of public  
moneys by two former state treas-  
urers, Small and Sterling. The av-  
erage deposits of state moneys car-  
ried by this purported bank were  
\$10,000,000.

**\$500,000 At Time**  
"The evidence shows that money  
was taken from the state treasury  
in lots of five hundred thousand  
dollars and deposited in the so-  
(Continued on Page Five)

## MASTER BANDIT FAILS TO INTIMIDATE MAIL CLERK, WHO DOWNS HIM UNAIDED

Roy Gardner, master bandit, at right; Herman Inderlied, the mail clerk,  
center, and the sheriff, with a detaining handcuff on Gardner.

Roy Gardner had escaped from McNeil penitentiary, Washington,  
unaided and was being sought dead or alive by police all over the coun-  
try when he climbed into a mail car on the A. P. & S. F. road near Los  
Angeles to rob the car. Mail Clerk Herman Inderlied, six feet two and  
weighing 215 pounds, was ordered at the point of a gun to throw up his  
hands. Inderlied struck the gun from Gardner's hand, threw him to the  
floor and sat on him until Inderlied's calls to trainmen outside brought  
aid.

## LONG DOCKET FOR COURT IS ENDING

Important Cases Are Settled  
During Three Weeks'  
Grind of Court.

With scores of settled cases stand-  
ing behind it as its signal achieve-  
ment, the November civil docket of  
the district court was about to close  
its grind today after three weeks  
of almost constant work. At the  
outset, almost 200 cases were listed  
for trial and the docket called for  
a session of only two weeks. The  
dismissal of some cases by agree-  
ment and the rescheduling of others  
cleared the track somewhat for the  
heavier jury suits.

A list of results during the clos-  
ing days of the session was made  
up today by the county clerk. They  
are all jury docket cases and were  
settled as follows:

C. S. Willoughby, administrator  
of the estate of George W. Davis,  
deceased, vs. the St. Louis and San  
Francisco railway company, damages  
for the defendant in the sum of  
\$10,000; W. M. Hensley vs. Charles  
E. Schaff, receiver for the M. K. and  
T. railway company, for the sum of  
\$500; T. W. Satterthwaite vs. J. L. Van Disson,  
et al, defendant against the  
plaintiff in the sum of \$6,750; Jim  
Ellis vs. Robert Maxey, plaintiff  
for the possession of the car sued  
for or its value of \$300 and dam-  
ages in the sum of \$37.50; Carrie  
Willoughby vs. St. Louis and San  
Francisco railway company, plain-  
tiff in the sum of \$800; W. S.  
Wood vs. St. Louis and San Fran-  
cisco railway company, plaintiff in  
the sum of \$200; Nettie L. Davis  
vs. St. Louis and San Francisco,  
plaintiff in the sum of \$20,000.

After the close of a short session  
of the court today, machinery of the  
tribunal probably will not again be  
put into action until Monday, De-  
cember 5 when a special criminal  
docket opens. This term is expected  
to last about two weeks.

## THREE WOMEN CHARGED WITH THEFT OF DRESS

A plea of guilty was entered be-  
fore Justice of the Peace H. J.  
Brown yesterday by Thelma Martin,  
charged with theft, after three  
negro women had been arraigned on  
a complaint of stealing some  
dresses from the Guest store here.  
Rosetta Newton and Frankie Dun-  
ford also were charged with the  
theft and are being held until  
Thelma Martin has paid her fine,  
which was assessed by Justice  
Brown at \$25 and cost.

The United States has more than  
one-third of the swine in the world.

## SAVAGES ATTACK O. U. GEOLOGIST IN WILDS OF S. A.

NORMAN, Nov. 26.—(Special)—  
To be wounded by a band of head-  
hunters while prospecting for oil  
is not the experience of all geolo-  
gists graduating from the University  
of Oklahoma, but that is what be-  
fell Grady Kirby, B. A. '15, Kirby,  
formerly with the Venezuela Oil  
company at Maracaibo, has recently  
returned to the United States and  
visited Norman.

Kirby was one of a party, which  
included Faison Dixon, an engineer  
of New York, and six Venezuelan  
natives, that was sent out by the  
company to make a geological sur-  
vey of the mountainous region  
drained by the Araquiza river, in  
cedar canoes.

After they had gone up the river  
300 miles they reached a wild, un-  
explored region in the mountains  
of Venezuela. While attempting to  
land, the party was attacked by a  
band of savages, according to Kirby.  
Bows and arrows as tall as the  
warriors were used by the head-  
hunters. The arrows had barbed  
hard-wood heads and had been dip-  
ped in poison.

The natives knew nothing of fire  
arms and were greatly excited by  
the rifles which the explorers car-  
ried. The head-hunters prevented  
their landing and they were forced  
to abandon the expedition. Kirby  
said. In order to make speed in  
going down the river they threw  
their 20-days' supply of rations into  
the stream.

"We succeeded in killing two of  
the head hunters," explained Kirby,  
"but I was slightly wounded in  
the knee." He does not expect to  
return to South American and es-  
pecially not to the mountains of  
Venezuela.

## Francis Team Drubs Cement Plant Comers In Caging Battle Here

Francis high school is launch-  
ing an effort to cop the 1921 basket-  
ball pennant of this district and,  
if possible, the high school title of  
the state, according to an announce-  
ment from W. K. Newcomb, coach,  
who states that his men are making  
a good showing and that he has a  
lot of good material to pick from.

Their second game of the season  
was played with the Portland Ce-  
ment company's team here last  
night, Francis winning by a score  
of 27 to 11. Williamson, forward  
for the Francis squad, made the  
largest number of points, his total  
of 13 alone being enough to win  
the game. Others making points for  
the Francis team were Sampson,  
forward, 10 points; Rose, center, 8  
points; Murphy, guard, 4 points.  
Stevens, substituting for Murphy,  
made 2 points.

## \$1,500,000 FIRE IS REPORTED TODAY AT AUGUSTA, GA.

AUGUSTA, Ga., Nov. 26.—Dama-  
ge estimated at \$1,500,000 was  
caused by a fire which broke out  
in the business district here and  
burned for four hours before it  
was brought under control with the  
aid of fire apparatus sent from  
Wainsboro and Aiken, South Caro-  
lina. So menacing was the blaze at  
one stage that additional apparatus  
was requested from five other cities,  
including Atlanta, much of it having  
been started on its way before the  
fire was brought under control.

## MEAT WORKERS MAY STAND OUT AGAINST SLASH

Public Demonstration Will  
Show Disapproval On  
Cut in Wages.

LANE MAKES ATTACK

"Industrial Plan on Paper  
Only" Secretary of Meat  
Cutters Asserts.

(By the Associated Press)  
CHICAGO, Nov. 26.—"Public  
demonstrations" that the packing  
workers have not accepted the re-  
cent wage reduction scheme to take  
effect next Monday will be staged  
in every packing center next Sun-  
day, Dennis Lane, secretary-treas-  
urer of the Amalgamated Meat  
Cutters and Butcher Workers union,  
announced today.

The international executive board,  
which has been meeting here daily  
for more than a week, will assem-  
ble again next Wednesday to de-  
cide whether or not a strike shall  
be called under the authority vot-  
ed them several weeks ago.

Three demonstrations will be held  
in Chicago Sunday, two in the open  
prairie and a third by the negro  
workers, at a south side club.

Mr. Lane attacked the industrial  
relation plan, under which employ-  
ees of the five big packing compa-  
nies have agreed with their em-  
ployees on the wage reduction.

**Only on Paper.**  
"The so-called industrial plan of  
the packing exists only on paper,"  
he said. "Not one of the packing  
house employers has ever called a  
meeting of all workers of every de-  
partment to select representatives  
or to vote on a wage reduction."

"Last March when the packers  
made a bold attempt to violate the  
Aischuler plan, they hastily ar-  
ranged their so-called industrial re-  
lations plan. They went through  
the burlesque of holding elections  
of representatives which elections  
consisted of the foreman and time-  
keeper going among some of the  
workers and asking them to vote on  
ballots presented by the company so  
elect one of the names that the com-  
pany had placed on the ballot.

"The so-called representatives con-  
fering with the packers who were  
supposed to have agreed to wage  
reductions, have not reported to  
their fellow workers or advised  
with them regarding the same."

## LAWYERS WOULD BEHEAD LANDRU, "KING CRIMINAL"

VERSAILLES, Nov. 26.—Two  
attorneys representing heirs of  
two of the alleged victims of  
Henry Landru, on trial here  
for the murder of ten women  
and a boy, today repeatedly de-  
manded the "Bluebeard" con-  
viction in summing up the case  
before the jury.

The alleged "assassin" was  
held at attention more often  
in their summing up than at  
any time through the three  
weeks' trial.

"There sits the greatest and  
shrewdest criminal of all time,"  
declared one of the attorneys,  
in his address. "Citizens do your  
duty. Send him to the guillo-  
tine!" he shouted.

One newspaper to every three and  
one-fifth persons is published in the  
United States.

## T. R.'S SON HEADS COMMITTEE ARRANGING NAVY REDUCTIONS

Mr. and Mrs. Theodore Roosevelt.

Col. Theodore Roosevelt, as-  
sistant secretary of the navy and  
one of the advisers to the Amer-  
ican arms delegation, has been  
made chairman of the naval  
technical committee, composed of  
one naval expert from Great  
Britain, Japan, Italy, France and  
the United States, which will ar-  
range details of plans for re-  
ducing the naval strength of the  
powers represented at the con-  
ference.

Mr. and Mrs. Roosevelt were  
snapped as they left the Pan-  
American building, where arms  
conference sessions are being  
held. It is one of the few pic-  
tures ever taken of the couple  
together.

## AMERICA TO LEAD IN OPENING GATES TO WAR CONVICTS

WASHINGTON, Nov. 26.—America  
may take the lead among the na-  
tions associated with her in the  
world war in freeing those convicted  
of wartime offense, if the program  
of leniency being considered by  
President Harding is adopted, of-  
ficials said today.

Investigation of the steps taken  
in this direction by foreign nations  
made by representatives of this  
country abroad was said by officials  
to have disclosed that prison doors  
are still closed upon violators of  
the war laws of all the other gov-  
ernments.

**Those Sentenced Not Freed**  
Foreign governments, officials  
said, have treated the question of  
war offenders in two ways. Where  
individuals were arrested and held  
upon suspicion of disloyalty or in-  
trigue, but were not convicted be-  
fore the end of the war, the allied  
nations have given them their free-  
dom, but those sentenced for such  
offenses still are held in prison.

The work of collecting data upon  
the war law violators in this coun-  
try, requested by President Harding  
has been begun, justice department  
officials declared today. Preparation  
of the digests of the different cases,  
officials said, may take several  
weeks as it will be necessary to  
communicate with all the federal  
and state prisons in the country  
to ascertain where the law violators  
are confined and to obtain histories  
of their cases.

**Debs Report Complete**  
While the history of the case of  
Eugene V. Debs, socialist leader in-  
carcerated at Atlanta, has been com-  
pleted, officials were understood to  
believe that recommendations on  
the question of his freedom would  
not go to President Harding for  
some days.

**PARDON FOR DEBS ASKED  
BY MINERS' CONVENTION**

(By the Associated Press)  
FORT SMITH, Ark., Nov. 26.—  
The convention of the United States  
Mine Workers of Oklahoma, Ark-  
ansas and Texas last night adop-  
ted a resolution asking President  
Harding to pardon Eugene V. Debs,  
and "other industrial prisoners." The  
convention refused to vote financial  
aid to miners who engaged in a  
stock company mining venture at  
McCurran, Okla.

## ADA BOY SCOUT BAND TO ROFF FOR CONCERT

The Ada High School Boy Scout  
band will leave scout headquarters  
at 1:15 tomorrow afternoon for  
Roff where it will stage a concert  
in the interest of the Pontotoc  
county scout extension movement.  
Judge Orel Busby, president of the  
scout council, and Rev. C. C. Mor-  
ris, pastor of the First Baptist  
church, will speak.

Harry W. Miller, scout executive,  
urged today all persons who had  
promised cars for the trip to have  
them at scout headquarters promptly  
tomorrow afternoon.

E. V. Rushing, of 716 East Eighth  
street, has moved with his family  
to Francis.

Mrs. Val Land, of 130 East Four-  
teenth, expects to undergo an op-  
eration this afternoon for appendi-  
citis.

## CITY'S LEADERS VOICE APPROVAL IN C. OF C. PLAN

Over Hundred Local People  
Attend Booster Meeting  
Friday Night.

OPPORTUNITY CLEAR

Y. M. C. A. and Churches  
Shown As Part of Ada's  
Biggest Needs.

That Ada has splendid possibili-  
ties which need only co-operation  
and a program to realize, was the  
universal theme of speakers at the  
meeting last night of the Advisory  
Council of the Chamber of Com-  
merce Reorganization Movement.

The meeting was well attended,  
something over 100 leading citizens  
being present. Stirring speeches in  
favor of the movement were made  
by H. B. Roach, Judge Gilbraith,  
Rev. Morris, Mrs. Tom Hope, Prof.  
Hickman, and County Attorney  
Waddington.

On motion of R. L. Givens, sec-  
onded by Claude Pitt, it was unan-  
imously voted that the plan of the  
reorganization movement as ex-  
plained to the meeting be adopted  
and given all possible support.

On motion of Miles Grigsby, sec-  
onded by A. L. Pentem, an execu-  
tive committee to direct the details  
of the movement was created con-  
sisting of the present board of  
directors of the Chamber of Com-  
merce and six other citizens to be  
elected by the meeting.

This election was in the form re-  
commended in all Chamber of Com-  
merce procedure. The names of  
twelve candidates were placed in  
nomination. Roy Givens, Miles  
Grigsby and A. L. Pentem served  
as nomination committee, and the  
six receiving the highest vote by  
written ballot were declared elected.

**Executive Group Named**  
Claude Pitt, Marco Nickell and  
Charles Zorn were appointed tellers  
and announced the election of an  
Executive Committee consisting of  
R. L. Givens, J. E. Hickman, A.  
Linschied, W. D. Little, Wm. New-  
ton, Jr., and M. C. Wilson. These,  
with the Board of Directors will  
as noted, constitute the executive  
committee of Ada's awakening  
movement.

C. E. Cunningham presided at the  
meeting, which opened promptly at  
eight o'clock. Chairman Cunningham  
said that it had long been agreed  
that much needed to be done to  
realize Ada's possibilities and that  
co-operation would accomplish the  
end. The Chamber of Commerce  
had, therefore, after more than a  
year's consideration, decided upon  
the movement which began with  
the night's meeting. In order that  
it might have proper direction and  
that the results aimed at be more  
certain of attainment, the Chamber  
of Commerce had retained the Bu-  
reau of Organization Service to di-  
rect this movement.

**Work Is Outlined**  
He then introduced J. B. Price,  
of this Bureau, who sketched a  
plan of procedure covering two  
months' work and assistance for a  
number of years to come. The plan  
as outlined includes a campaign of  
education in which the assistance  
of schools and churches and all the  
local organizations will be sought.  
An intensive membership drive of  
one week will take place during the  
week of December 12. The building  
of a program of work for Ada  
will occupy practically the whole  
month of January. H. B. Roach,  
commenting upon the plan as out-  
lined, said it had his approval.

"The time when Ada was the  
most energetic growing town in the  
state. This time would come again  
if everybody pulled together. Pay-  
rolls would bring Ada much that  
she needs. But payrolls will come  
if the people of Ada get together  
and pull together on a program to  
develop the city's great natural re-  
sources which are admitted to be  
as fine as anywhere in the country,"  
he declared.

Judge Gilbraith said that he liked  
the slogan of the movement:  
"Hitch Ada to its possibilities." He  
believed Ada's possibilities unlim-  
ited. He had come to the meeting  
to listen, he said, and had become  
convinced that the plan was right.  
He pledged the movement his per-  
sonal support.

**Pastor Voices "Amen"**  
Rev. Morris said that he could  
say with all sincerity that Ada was  
the finest place he had ever lived  
in, not excepting his own home  
town. But Ada needs many things,  
such as better churches, more pub-  
lic buildings, a court house, better  
streets. These things could be got-  
ten by co-operation. As to the plan  
here outlined he would say in the  
phrase of the churchman "Amen."

Mrs. Tom Hope recounted the  
earnest efforts of the women of  
Ada through the Chamber of Com-  
merce auxiliary to help Ada in  
every way. In some of their efforts  
they had met with heart-breaking  
setbacks.  
(Continued on Page Six)

## OSARK MEMBERS NOW IN ACTION

Sub Organizations Formed  
and Future of Branch  
Is Now Assured.

That the branch of the Ozark  
Trails, extending from Stratford to  
Texarkana, is working out success-  
fully is evidenced from reports all  
along the line, according to an an-  
nouncement Saturday by H. B.  
Roach, president of the branch as-  
sociation. In a telephone message  
from the Stratford sub-organization  
this morning Roach was told that  
the people there had met last night,  
voted the Stratford quota and were  
making plans to immediately erect  
their pyramid. Thirteen of these are  
to be erected along this route.

The Coalgate boosters will meet  
next Monday to perfect their orga-  
nization and it is expected from the  
amount of interest there that it  
will go over the top without any  
trouble. Other towns are making  
plans to perfect sub-organizations  
as soon as possible, Mr. Roach said.

The Ada division will be orga-  
nized at once, R. W. Simpson, vice-  
president who will act as head of  
this organization said. Much inter-  
est is being shown here and it is  
expected that the money for Ada's  
pyramid will be raised without much  
trouble. A pyramid will be erected  
here also as soon as funds are avail-  
able.

The route is to be marked as soon  
as sub-divisions along the route are  
functioning, which is expected to be  
several weeks yet. The trail will  
then be included on the map of other  
Ozark Trail routes, making this  
section one of importance on the  
road maps of the country, according  
to the branch organization president.

## BANDITS ROB CAR CARRYING \$20,000 AND GET AWAY

CELSEA, Mass., Nov. 26.—Four  
men held up an automobile from  
Shawmut Bank of Boston here to-  
day and stole the pay roll fund,  
said to have amounted to \$20,000.  
The bandits escaped in an auto-  
mobile with a New York registra-  
tion number. One of the men was  
thought to have been wounded by a  
shot fired by the bank messenger.  
A score of shots were exchanged.  
Officers of the shoe company for  
which the money was intended said  
the total amount in the bag was  
\$28,474.

In times of peace, be peaceful.

**NOTICE MASONS.**  
Ada Lodge, No.  
119, A. F. & A. M.,  
will meet in called  
communication tonight  
at 6:30 o'clock for the  
purpose of work in  
Entered Apprentice Degree. All Ma-  
sons urged to be present. Visitors  
heartily welcomed.—F. C. Sims, Sec-  
retary.

## BIBLE THOUGHT FOR TODAY

TRIED AND PROVED:—As for God, his way is perfect; the word of the Lord is tried; he is a buckler to all them that trust him—2 Sam. 22:31.

## TOOTING OUR OWN HORN

The present management has now been in charge of the Ada Evening News for a little more than six months. While no revolutionary steps have been taken, we are proud of the progress that has been made. The size of the paper has not been increased, due to the financial conditions, but we believe in quality and features the Ada Evening News now ranks far above any other newspaper in the same size town in the Southwest and equal to any paper in any town of twice the population.

Recently we have added comic features that are generally used only in large publications. Hambone's Meditations, Mickie, The Young Lady Across the Way, Doings of the Van Loons, and Mutt and Jeff are a line-up of comics that place the Ada News in the same class with newspapers in Chicago, St. Louis and other large cities. Recently we have added a news pictorial service, and from time to time photographs of the great men and women and great happenings can be seen in the News as soon as, or sooner than, in any other newspaper. We believe that the best is none too good for Ada, and the present management intends to put forth every effort to give only the best.

Day after day, we have compared the line of local news with that in other newspapers. Without exception, a comparison shows that our readers get more live local news than the readers of our exchanges. The foreign news service is the same as that obtained in most cities up to eighteen thousand population.

Then, too, there is the daily cartoon by Bushnell. These cartoons are used by the Fort Worth Record and other leading daily newspapers. We are proud of the cartoons and believe the readers appreciate them.

While the service is far above the average, it does not reach the standard we have set. There has never come out yet a paper which was satisfactory. Probably such will never be the case, but step by step we intend to improve it just as rapidly as we can. It will never fulfill our dreams until a father can sit down in the evening and read every line to the entire family, and when this is done, the family have an accurate conception of what is going on in the world and the home town, and also have a good piece of fiction or two thrown in.

It would be ungrateful on our part to close this article without thanking those who have made this progress possible, the thousands of readers and the business men of Ada. Judging from the subscriptions that are coming in, we know we must be pleasing the readers and rendering a distinct service to the advertisers. We want to thank all these and ask them to go along with us and help make the Ada Evening News just what we want it to be—and what you want it to be.

## CONFLICTING BENEFITS

The Consumers' League is vigorously opposing the campaign of the National Woman's Party which has as its chief object now the adoption of an amendment to the federal constitution conferring absolute equality of the sexes economic, political, civil and legal.

The general secretary of the league points out that such an amendment would "endanger if not abolish" a large amount of legislation now existing in 44 states restricting the working hours of women, providing a minimum wage for them with other hard-won gains in enlightened industrial legislation.

This is a strange situation if the removal of legal and other disabilities incurred on account of sex would re-instate a number of far greater handicaps. There must be some reasonable and normal solution to the difficulty which will be discovered eventually.

Wm. H. Murray is still full of the pioneering spirit. Having pioneered the Indian Territory he began to look about for other new countries that needed the attention of live wire Americans and undertook to head a colony to Bolivia. When conditions in that country made success impossible he turned his attention to Peru and is preparing to lead a pioneering expedition to that South American Republic. With American spirit and enterprise turned loose down there Peru should take some rapid steps forward in the matter of developing her almost untouched resources. Americans have from the beginning been ideal pioneers and having developed their own country fairly well will find greener fields south of the equator.

Again the newspapers are urging people to do their Christmas shopping early but it is not to be supposed that this admonition will be heeded to any noticeable extent. People will just naturally wait until the last minute before buying. It's human nature, and hard to change.

## HE CAN'T FIND A PRECEDENT ANYWHERE IN HISTORY TO PARALLEL THIS EVENT

## The Forum of the Press

Work for All  
(Fort Worth Record)

It is claimed that the problem of unemployment in the United States today has been caused by the difficulty in restoring the equilibrium between one producing group and another, and that those who attempt to delay it are working against the best interests of labor itself. To what extent it is a question between capital and labor opinions differ, only time and economic developments can determine, but probably if each side would make some concessions, so that work throughout the nation might be carried on according to the necessities and opportunities, the problem would reach an early solution.

According to the department of labor, the strikes for the first six months of 1921 cost employees \$1,179,000,000, or at the rate of 15.3 percent of the nation's industrial pay roll. This would mean a loss of about \$2,350,000,000 for the year, or nearly enough to give 2,000,000 men \$100 a month each for a year.

The department of commerce recently made a survey under the direction of Secretary Hoover, which shows there is construction work calling for the expenditure of \$10,000,000,000 in this country. The workers in the building trades could have \$5,000,000,000 of it if they would agree to wage revision on a basis that the industry could stand. It is claimed; yet unemployment is more pronounced in the building industry than in almost any other line, records of the department of labor showing there are more strikes in the building trades than in any other branch of industry.

Skilled labor in building trades asks \$1 an hour for eight-hour work days, and six trades want even more than that. Unskilled labor in the building trades is demanding \$5 a day, but in the steel industry, for the same class of work, is accepting \$3 a day.

It is claimed that living expenses now are higher than formerly because the standard of living is higher, this being especially true in the cities, where labor in manufacturing industry is gathered. It is not desired to lower the standard of living, and yet it is lowered when there is unemployment of large numbers. It could be much better maintained if work was accepted by all, even though the wage scale should be a little lower. Undoubtedly prices would soon adjust themselves so that the scale of living could be raised even higher than at present, for that is the ultimate aim and purpose of every individual, whether he be in the rank of unskilled or skilled labor, trade, profession, manufacturer or capitalist.

War in its last analysis is merely the difference between individuals carried into groups of identities representing nations. Eliminate war between nations, eliminate war between individuals or groups of individuals, and settle all differences by arbitration, and the world will be happier and civilization will make great forward strides. It will come with the millennium, and in the meantime the individuals and the nations must continue to climb.

(New York Sun)

Mild radiance of sunset shines through recent words of both Henry Watterson and Georges Clemenceau. Mr. Watterson writes an affecting letter for non-attendance at an approaching reunion of Confederate veterans in Chattanooga, in which the mellow tones of resignation to Time's mastery are shot through

with swift flashes of the old fire. The aged Tiger of France, admitting that the years have taught him lessons which he learned only under blows, desires most of all that every body should think of him as a friend. "The brotherhood of Frenchmen," which Clemenceau sets up as the formula best representing his own ideal, which all France should strive to be a more Catholic aspiration than—if not so tonic—as Marse Henry's vision of a Confederate reunion on the shining shore where he shall hear the bands playing "Dixie" and he shall clasp hands again with the fellowship in which he has been so stalwart a figure. Possibly the thought of both old men's minds is much the same. But awaiting the signal, both look back upon their friends of past years, eager to catch the farewell salute given with recognition of faithful leadership and with human affection as well.

The average life of a silk worm is 30 days.

## What They Say

\*\*\*\*\*

### Duty of Fathers and Mothers.

A lawyer once asked the Christ, "What is the greatest commandment?" answering he said, "To love God, with all your heart, mind and soul," and there is another like unto it which is "to love your neighbor as yourself," "on these hang all the law and the prophets." Solomon after having tasted of life, in harmony with God, allowed himself to be surrounded with all the worldly pleasures which his exalted position could secure him. But they failed to satisfy him, and we hear him saying, that "the whole duty of man is to love God and keep his commandments; all else is vanity and vexation of spirit."

So in answer to the question—"What is the first and greatest duty of fathers and mothers?" I hesitatingly say, it is to teach their sons and daughters by precept and example, those great principles of virtue and morality, which we find within the folds of the "Holy Bible." This duty cannot be shifted to the public school, or to the Sunday school, but it must be done at home. Of course this may take some of father's time from business, and mother may have to give up

## MICKIE SAYS

WUNGY MORE I BESEEH AN' I'MORE YOU TO GRAB UP A TELEPHONE 'N SLIP US ANY ITEMS YOU KNOW! FOLKS SAY WE GIT OUT A NEWSY PAPER, BUT WEVE ALWAYS GOT ROOM FER ONE MORE ITEM

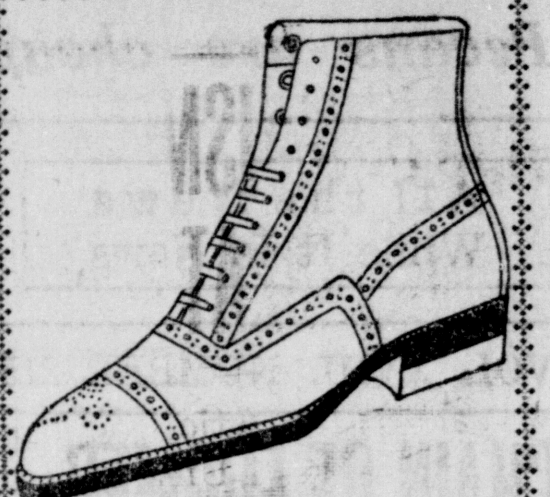

some social affairs, but to know that their children's future is secured against evil, should compensate them for any social or financial loss they may sustain, and God specifically says "bring a child up in the way he should go, and when he is old he will not depart from it." First parents must study God's word, in order to know their duty, and how to perform it for no matter how zealously you may work at any task, you cannot hope to accomplish great results, unless your zeal is intelligently directed, and God don't promise to reward ignorance, but he says "study and show thyself a workman that needeth not be ashamed."

So I say, that on the way we as parents, meet this our greatest duty hangs the future of our children, our city, state and nation, and the influence, which our nation will have on the world.

is an exceptionally good number for this season. Also in tan at the same price.

## MANUEL HERRICK SUES OKLAHOMAN FOR \$50,000

Manuel Herrick, representative in congress from the Eighth district, Monday filed in the district court in Oklahoma City a suit for \$50,000 damages against the Oklahoma Publishing company, according to a story in the Daily Oklahoma November 15.

Herrick alleges there was printed in the Daily Oklahoma of September 4 a picture of a building represented to be his home, which in reality, he says, is his hen house. The representative declares he intended to marry and that publication of the picture has spoiled his chance to obtain a suitable bride.

## AMERICANISM TO BE GREAT ISSUE

Loyal Organizations Through Country Will Unite for Advancing Cause.

The American Legion will be a co-sponsor in American Education week, to be held throughout the nation December 4 to 10, according to announcements that have been received here. It will be assisted in carrying out the week's program by the National Education Association, co-operating with many other organizations which deal in educational, religious, fraternal and civic work.

Dr. L. E. Emanuel, Chickasha, has been appointed state head of the state Americanism movement, to be carried out during the week. Purposes of the week are "to inform the public of the accomplishments and needs of the public schools and to secure co-operation and support of the public in meeting these needs and to teach and foster good Americanism."

The city superintendent of schools Chambers of Commerce, Women's clubs, churches, and various other bodies will assist. Sunday, December 4, will open the week as Americanism Sunday, with appropriate sermons from every pulpit. Monday has been devoted to "Our Flag," Tuesday to "American Ideals," Wednesday to "The Language of America," Thursday to "Immigration," and Friday to "Naturalization."

**Patriotism Stressed.** Following is a statement that has been issued as a platform of the National Educational association in its activities during the week:

1. That all teachers in America, exchange teachers and professors excepted, should be American citizens and should be required to take an oath of allegiance to the government of the United States.

2. That no one should be permitted to teach in any school in America who has less than a standard high-school education of four years with not less than two additional years of professional training.

3. That the English language should be the only basic language of instruction in all public, private, and parochial elementary and high schools.

4. That adequate instruction should be required in American history and civics for graduation from both the elementary and high schools.

5. That the American flag should be displayed by every school during school hours and that patriotic exercises should be conducted regularly in all schools, and further, that the American Legion be invited to furnish speakers from time to time at these and other exercises of the schools.

6. That school attendance should be made compulsory throughout the United States for a minimum of thirty-six weeks annually to the end of the high-school period or to the age of eighteen.

7. That an educational week should be observed in all communities annually for the purpose of informing the public of the accomplishments and needs of the public schools and to secure the co-operation and support of the public in meeting these needs.

8. That the Representative Assembly of the National Education Association authorize the appointment of a standing committee to co-operate with the American Legion throughout the year for the purpose of carrying into effect the program outlined above.

### UNCLE SAM TRAINS 102 WAR VETERANS AT O. U.

NORMAN, Nov. 26.—(Special)—One hundred and two of Uncle Sam's veterans are now listed for vocational training under government supervision in the University of Oklahoma most of them taking professional courses, according to Dr. Roy Gittinger, dean of undergraduates and registrar.

Because of disabilities resulting from service with the colors, these men, and one woman, are receiving an education with Uncle Sam footing the bill. Single men receive \$100 per month and all books and supplies. Married men receive \$125, with an additional amount for children in the family. They receive this compensation as long as they wish to remain in school, providing their work is satisfactory.

### THE YOUNG LADY ACROSS THE WAY

The young lady across the way says she's glad to see that President Harding thinks sectionalism can be stamped out in this country and she always did think one church was about as good as another.

## IN SOLE

One of the most enjoyable parties of the Thanksgiving session was the one given last evening by Miss Mollie Russell, at her home on West Fourteenth street, to members of the Senior Christian Endeavor Society of the First Presbyterian church, and their friends.

At an early hour the young people began to arrive and were soon engaged in playing many new and unusual games. As soon as one game was finished the hostess was ready for them to go into another.

After the games a delicious salad course was served.

Dr. and Mrs. Sam McKeel had for their Thanksgiving guests E. S. Hooper and Dr. P. L. Hooper of Fort Worth, Texas, brothers of Mrs. McKeel. Dr. Hooper returned to Fort Worth Thursday evening, and E. S. Hooper returned Friday evening. This was the first visit of these distinguished citizens of Fort Worth to Ada, and they were pleased with the little city.

Miss Wanda Brown, who has been with her father, Marvin Brown at Denver, Colo., for the past few months, arrived in the city last night for a visit with her mother and sister. She will spend several days here before returning. Her sister, La Verne, is planning to return with her for a short visit with her father.

Building permits during the past month have decreased almost 75 percent according to figures from the city clerk's office. Only in the past week has anything like a revival been noticed in the building industry of the city, it is said. Most of the building work was on houses which were started prior to last month.

Bostic Roddie, Mrs. Roddie and their little son are in the city visiting the mother of the first named and other relatives. Bostic is remembered as a distinguished athlete in early days of the Normal. Their home is in Dallas.

A business meeting of Troop I, Ada Boy Scouts, was held at the home of the Scoutmaster D. T. Bradshaw, on West Sixteenth street, last night at which a discussion of the disposition of the money in the troop treasury was held.

John Messenger, formerly of this place but now of Dallas, Texas, stopped off for a few hours Friday on his way home from Henryetta. John is now in the oil business and looks prosperous.

Ed Brents, son of Mr. and Mrs. T. E. Brents of South Broadway, who is teaching in Purrell this year, is here to spend the week-end holidays with his parents and friends.

Miss Mabel McKeel is among the Ada teachers in other cities who is spending the Thanksgiving and week-end holidays with relatives. She is teaching at Henryetta this year.

Miss Helen Darlington of Oklahoma City was here during the Thanksgiving holidays for a visit with relatives and friends. She will leave this afternoon for her home.

Mr. and Mrs. George Morrison of Muskogee were visitors here this week, returning, after a stop-over with friends.

J. A. Bolton has let a contract for the construction of a residence in Sunrise addition, which will cost approximately \$2,500.

W. K. Newcomb of Francis is here for a week-end visit with relatives and friends. He is teaching at Francis high school.

Miss Marvyn Brydia was hostess to an informal dance at her home on North Hope avenue last evening.

### New Material Comes Out for News Squad Now Being Trained

The Ada News basketball team, one of the six members of the Ada Basketball League, held a hard workout last night with several new men out, according to an announcement from the manager, Ralph Warner today. Among the new men are Cooper, forward, Sherman, center, Auld, any position, Floyd, guard. Several others, in addition to the men named, were out.

Suits for the team have arrived and other equipment is ready and the team is looking forward to their first game next Friday when it meets the Battery F five. With a large number of old stars on the quintet, the News squad is harboring hopes for a good showing during the league season. No reports were available from Battery F headquarters today as to progress that team is making.

### In The Oil Fields

The Transcontinental people at Maxwell have let another contract for additional 1000 feet. They have received and unloaded 4000 feet of 5 1/2 inch casing. This is being hauled out to the well.

The Doan well at Galey is drilling and it is reported that they are having a good showing.

The Nance well in section 4-4-5, near Bebee, is making more than 100 barrels a day according to the information obtainable. This puts the well into a big class and forecasts rapid developments in the Bebee country.

Try a News Want Ad for results.

## NOVEL HAT AND SCARF SET FOR WINTER SPORTS

To have merely a woolen scarf nowadays is commonplace; one must have a hat or tam to match to be up-to-the-minute. Here a simple hat and scarf set of bright blue duvetyne has been transformed into an attractive novelty by the use of black wool applied in odd fashion to imitate fur.

## RAIL WAGE FIGURES BRANDED AS FALSE

(By the Associated Press.)

WASHINGTON, Nov. 26.—Railroad wage figures supplied by the railroad executives to the interstate commerce commission and the railroad labor board were branded as "statistically false" by Frank J. Warren, economist for the railroad brotherhoods, in a discussion today on railroad questions before the senate interstate commerce committee. He charged that the railroad data, in many respects, was untrue and in others entirely misleading and introduced to show a higher average wage than employees received.

The railroad heads, Mr. Warren asserted, made the higher wage showing by including in the wage figures the salaries of highly paid executives and general officers.

He cited as one instance for the group an official with a salary of \$100,000 yearly, with 67 employees whose annual pay averaged \$1,500.

### Engineers Plan For Preliminary Survey for Railway Branch

Preliminary surveys are scheduled to start Monday for the Oklahoma Short Line railway, proposed to be built from Ada to Asher to connect with the Rock Island spur from Shawnee, according to John Lamar, engineer. John Farrell, architect, has completed plans for a mess hall and bunk house to accommodate 50 workmen and to be built on the South Canadian river, it was announced today.

In case the railway is started, engineers plan to rush construction this winter so that farmers will be given employment. If the project goes through, it was explained, it will be an individual investment under assurance from the railway company that it will take over the line if satisfactory. According to an early estimate the road will cover about 38 miles with the possibility of a shortening of about a mile and a half later.

### DETECTIVES THINK EACH OTHER THUGS AND FIGHT ENSUES

MILWAUKEE, Nov. 26.—Mistaking each other for thieves, two railroad detectives fought a duel on a Milwaukee road train six miles from Brookfield Junction last night, it became known today.

As a result John Bresnahan, Pon-du-Lac, is in a critical condition from a bullet wound in the abdomen. He is not expected to live.

Elmer Kleck, of Milwaukee, is suffering from a severe bullet wound in his arm.

### HIJACKERS GET JEMS OF \$60,000 VALUE SATURDAY

ST. LOUIS, Nov. 26.—Four armed bandits entered the office of a St. Louis refining company in the heart of the business district shortly before 10 a. m. today and escaped with diamonds and jewels said by company officials to be valued at \$60,000.

The company handles jewels. As the bandits made their get-away in an automobile they fired several shots, apparently to intimidate possible pursuers.

What is said to be the highest one piece structure yet built is a concrete wireless tower, 660 feet high, at Tokio, Japan.

Mrs. E. E. Matthews, Mr. and Mrs. M. O. Matthews, Mr. and Mrs. H. E. Matthews, Mr. and Mrs. A. D. Allen.

### FIVE BODIES FOUND IN A DRIFTING LIFE BOAT

WATERTOWN, N. Y., Nov. 26.—Five bodies, four men and a woman, were found in a life boat ten miles southwest of Stony Point, Lake Ontario, last night by the crew of the Isabella H. a lake freighter. The victims are supposed to be from the crew of the City of New York, a Canadian craft which left Oswego two days ago.

## RUSSIA TO TAKE PLACE AT FRONT

Backward Nation To Arise and Join World Leaders, Bela Kuhn Says.

MOSCOW, Nov. 26.—(By a Staff Correspondent of The Associated Press)—Russia will be on her feet again and take her place among the world within the next four or five years, says Bela Kun, formerly Hungarian Communist leader. He is now living with his wife and child in a small house attached to a hospital in the outskirts of Moscow.

He writes for the Communist press, is active in the Third Internationale and is well thought of in the councils of the "Big Five" who control affairs in Russia, namely, Lenin, Trotsky, Kaminiev, Djerzinsky and Boukharin.

It will be recalled that Bela Kun was head of the Communist government in Hungary for five months in the spring and summer of 1919 and had to flee when the Rumanian army invaded the country and completed the wreckage wrought by the world war. To the correspondent of The Associated Press he said:

"We are on the right road now, here in Russia. I am not speaking as an official of the Soviet republic, but it is evident that the new economic policy will succeed. Russia will 'come back' in four or five years."

### Natural Wealth Is Big.

"You have just been through Russia. You saw how rich she is, rich as the United States in forests, in soil, in mines. Her people have broken down the old feudalism. They are at last free. They are being educated, and that is wealth, too."

"Surely, such a country should have a better chance of repaying foreign investments than bankrupt countries of western Europe lacking Russia's natural resources."

"The government here is finished with revolutions and is growing more stable and will and can protect foreign investments. Industrial or social revolutions may come elsewhere but we are through with them."

"Communism has not failed. Until now we were running a sort of war communism and we were hit by the foreign blockade, too. With peace, the government will continue to control and own the great industries, and in the end will absorb all but the smaller ones. That doesn't mean there isn't room for foreign concessions. Russia is so big. We are not getting around to a democratic government like that of the United States. We are doing better. We are working to liberate the workers and try to prevent their exploitation."

"In considering business hazards with Russia, let the American business men remember that so far the United States has obtained only nice bits of paper, promises to pay from France, England and Italy on the huge sums loaned there."

Bela Kun is working to overcome the famine, which he fears may extend far into the next year, partly because of the lack of seed grain, which the Soviet government can't provide in sufficient quantities, partly due to the hazards of weather. He is pushing the plan of an international loan to be launched through trade unions the world over. The plan is to have the Soviet government guarantee the loan, to be issued in bonds from one dollar up.

Bela Kun believes that persons who might not otherwise subscribe to famine charity would buy these bonds, in the hope of their redemption.

## COMING TO Ada, Okla.

The Physician on Chronic Diseases Will Visit Our City WEDNESDAY, NOV. 30th

And will be at the Arcade Hotel until 3 p. m., one day only.

Dr. Potter of 3108 Garfield Ave., Kansas City, Mo., who has treated thousands of patients with electricity and medicine, will give consultation, examination and all the medicines necessary FREE. If you are improving under your family physician do not take up our valuable time. The rich and the poor are treated alike. Idlers and curiosity seekers will please stay away. Our time is valuable.

Remember, NOT A PENNY will be charged for the medicine required to all those taking treatment this trip. Office hour, 8 a. m.

Positively married ladies must be accompanied by their husbands. Remember the date, Wednesday, Nov. 30 at the Arcade Hotel until 3 p. m. Ada, Oklahoma.

demption, five or ten years hence, when the Russian government has recovered its financial credit.

### NAVAL MINE SWEEPER UNDER BOOZE CHARGE

(By the Associated Press) PORTSMOUTH, Va., Nov. 26.—The naval mine sweeper Redwing, with a compliment of 60 men, was under naval guard at the Hampton Roads submarine base today following a discovery and removal last night of a large amount of liquor.

## ANSWER THESE IMPORTANT QUESTIONS

Have you ever had cause to doubt that you enjoy perfect vision? Do your eyes feel sore after a spell of close work—aching, smarting or feeling as if sand or grit was lodged behind the lids?

Do you ever, while reading, find that the print suddenly goes misty or confused? Is it necessary for you to hold your book or newspaper further away from the eyes than formerly—or do you need a stronger light? Do you find that reading or sewing for an extra hour or two causes headaches?

If you have noticed any of these peculiarities with your eyes you should have them carefully examined. Call and see us at once.

## COON

## It Adds, Subtracts and Multiplies

Thrift works automatically once its principles are practiced. In reality it is like a calculating machine which adds rapidly to your capital, subtracts from your cares and multiplies your pleasures. A thrift account with us is the key which opens an unsuspected avenue of progress.

We pay you to save your money.

Conference Will Determine  
If They Are Offensive  
or Defensive.

WASHINGTON, Nov. 26.—Aircraft has taken the place of submarines as a principal topic of discussion among naval men who are here for the conference for Limitation of Armament.

It was the new demand from Japan, foreshadowed in The Times Washington dispatch that she be placed on an equal footing with the United States and Great Britain—the other first-class naval powers—in the matter of aircraft carriers which prompted this shift in discussions from murky depths where the submarines lurk to ambush their prey to the blue air from which the warplanes launch their attacks.

It was predicted by naval men that when this new topic became a subject of conference discussion, as it necessarily must if Japan, as fully expected should press her demand in earnest, it will introduce into the deliberations of the arms limitation conference a topic involving what is, perhaps, the most vital principal underlying the present gathering of statesmen and military and naval experts.

Whether the bombing plane, which already, under tests conducted this summer by the American army and navy, has shown its destructive value in engagement with a capital ship, should be looked upon as a weapon of defensive or offensive character, would, according to naval men concerned in the deliberations of the conference, be a question calling for settlement in terms of precise definition. The question of precise definition, in the opinion of naval men, is this: Is the aircraft carrier on par with the capital ship in destructive potentiality and is the limitation fixed in the American proposal, for that reason, to be as rigidly adhered to as the limitation relating to dreadnoughts and battle cruisers?

Japan Wants Equal Share.  
In the Hughes proposal the ratio governing future limitation in the tonnage of capital ships is carried right through and in its practical effect, therefore, the aircraft carrier, though naturally classed as an auxiliary, is treated in the allotment of tonnage as though it were on a par with those big and powerfully armed vessels.

The Hughes proposal provides for an allowance in aircraft carriers of \$0,000 tons each to the United States and Great Britain and \$5,000 tons or 60 percent to Japan. Japan feels that whatever allowance is given the two first named powers shall be allotted to her also.

American naval men declined to discuss the prospective demand of Japan, declaring it was a question that the conference must settle. The subject will bring another knotty problem before the subcommittee of naval experts, composed of some of the foremost men in the Admiralties of Great Britain, Japan and France and headed by Assistant Secretary of the Navy Roosevelt.

Among naval men in Washington for the conference opinion as to what ought to be done was divided, carrying capacity there is scarcely many of the naval experts were reticent.

It was generally admitted, however, that aircraft carriers might be used as readily for offensive as defensive operations, the sole question involved being one of geography—whether they were used to ward off an attack in home waters or to carry abroad powerful war engines of the air for use in foreign waters.

"Of course," said one naval man, "an aircraft carrier having on board—said twenty-five bombing planes and the necessary complement of projectiles—might be said to far exceed in potential capacity for destruction any capital ship afloat or projected at present. Aside from any limit to the size and destructive force of the projectiles such planes can bear.

Only 38 per cent of the electrical power manufactured in the United States is produced by water power.

## WEDDINGS FROM ELOPEMENTS ARE FAILURE IS BELIEF

(By the Associated Press)  
ATLANTIC CITY, N. J., Nov. 25.—More than 85 per cent of runaway marriages are failures, said the Rev. Dr. George Clark Houghton, for the last 24 years rector of the world-famous Little Church Around the Corner in New York.

"I turn 50 couples away every month, refusing to marry them for various reasons," Dr. Houghton said here today. "I do not mean that the choice of the parents is always the best. Many times parents have grievances against the selection of their son or daughter that are unfounded. However, it is my observation that less than 15 out of 100 secret or hasty marriages weather the storms of the matrimonial seas. I cannot say that percentage of happy marriages result from the usual planned weddings, but it is many, many times greater than that of elopement marriages."

"Contrary to popular opinion, some of the most beautiful examples of married life are to be found in the theatrical profession. Of course, like the butcher, baker, merchant or lawyer, the theatrical folks have their disagreements that sometimes lead to the divorce courts. But some of the happiest of married couples are to be found in the profession.

"Whenever a couple come to me I have them fill out a questionnaire, asking them such questions as: Do you parents know you are to be married on this day, in this city, and at this hour? If the parents have not been advised, I ask the couple to permit me to get in communication with them. If this is granted, the couple must wait until I hear from the parents. If permission is not granted then I ask the couple to go elsewhere to be married by some one who has not the same kind of a conscience as I have."

Dr. Houghton is at the Ambassador, convalescing from a long illness.

## NEW ADDITION MADE TO WINTER DON'TS

(By the Associated Press)

NEW YORK, Nov. 25.—Cold weather "don'ts" of the past have been increased this year with a new one by the ventilation experts. It is that you make sure your garage is properly ventilated or your relatives may have to call an undertaker. Deadly carbon monoxide, a poisonous gas given off by automobile engines in motion, has taken a big toll of human lives in the past in the case of chauffeurs or car owners who failed to realize that working in a poorly ventilated or closed garage with the engine running was really as foolish as "blowing out the light" in the good old days.

New discoveries of the virulence of carbon monoxide recently have been made by Professor Yandell Harrison and other engineers working to solve the problem of ventilation.

### Skin Beauty Promoted By Cuticura

Bathe with Cuticura Soap to cleanse and purify the pores. If signs of pimples, redness or roughness are present smear gently with Cuticura Ointment before bathing. Finally dust on a few grains of the exquisitely perfumed Cuticura Talcum.

Sample Each Free by Mail. Address: Cuticura Laboratories, Dept. 330, Malden, Mass. Sold every where. Sample. One treatment and the Cuticura Soap shaves without using.

## From Ousted Chief of Police To Mayor of Cleveland in 8 Years Is Unique Record of F. Kohler

CLEVELAND, O., Nov. 23.—From dethroned chief of police to mayor of Cleveland in eight years was the accomplishment of Fred S. Kohler. Strangely enough Kohler, who became prominent as the "Golden Rule Crier" during Mayor Tom L. Johnson's regime, was elected without making a campaign speech. Instead, for five months he conducted a house-to-house canvass which he carried into every ward and probably into every precinct in the city.

"How many miles did I walk? Thousands, but I have no idea just how many," the mayor-elect said. "Of course, not every doorstop had a welcome sign hanging up for me, but I had one line that I used whenever I found a chilly reception, and it never failed to thaw a cold group. If I introduced myself it would up with: 'Well, if you'll vote for me I'll appreciate it and if you don't I'll never know about it.'"

Kohler announced his candidacy as an independent republican this fall. His slogan was: "Clean up the city."

"Best police chief in the United States."

"Make life, property and town safe, and you will have a city manager."

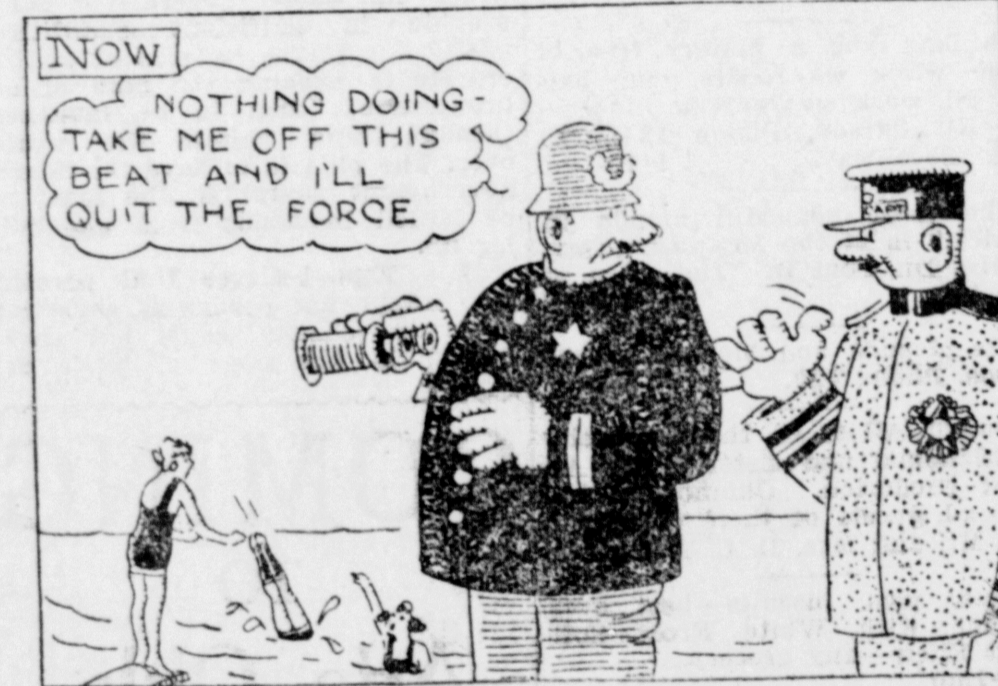

Started Comeback Early

Kohler's comeback started really from the day in 1913 when he was dismissed as chief of police by the civil service commission on charges filed by Newton D. Baker, at that time mayor, of conduct unbecoming an officer. Joining the police force in 1889, Kohler walked a beat only four years. Promotions came fast and he was made chief

square foot of the deadly gas a minute when in motion and in three minutes the air in a closed garage is saturated to a sufficient degree to imperil human life. The victim falls unconscious before he realizes he is in peril and death is the outcome unless he is speedily rescued and brought into the open air.

Woman Issue Postponed.  
GENEVA, Nov. 25.—The International Masonic congress here has postponed the consideration of the question of the admission of women to freemasonry until the Brussels conference in 1924.

Some men are born rich, some have riches thrust upon them and some use News want ads.

## SPRINGTIME IN BUENOS AIRES; WINTER IN U. S.

(By the Associated Press.)

BUENOS AIRES, Nov. 26.—While New York's Fifth Avenue shops are displaying the latest modes in furs and new creations in winter hats and while Miss New York's cheeks tingle in the chill autumn winds, the shops in the Calle Florida of Buenos Aires are showing the latest confections in the millinery of spring and the smartest designs in summer gowns and Miss Argentina's cheeks are rosy with the warmth of spring sunshine.

Calle Florida, like Fifth avenue, has its daily morning shopping parade of fashionably dressed women and in these first days of the southern spring when winter's garment is being replaced both by nature and by humans, it is an especially lively one.

Miss Argentina arrives in the shopping district in luxurious automobile and like her northern sister, proceeds afoot to "window-shop" from store to store, the chauffeur following his mistress as she progresses.

There are half a dozen large department stores on the Florida and numberless specialty shops, and in them she finds anything a feminine heart could desire in any city of the world, costly gowns, hats, lingerie and dainty footwear from Paris, practical household implements from the United States and jewelry, furniture and art objects from the four corners of the globe.

The fashions, so American women residents of Buenos Aires declare, are just two seasons ahead of New York. American women arriving in Buenos Aires in the spring, they say, can buy hats, gowns and shoes which they will find on returning six months later to the New York spring are "just coming in."

"Buenos Aires" from the beginning has kept about three inches ahead of New York in shortening skirts," says the wife of an American business man who makes frequent trips with her husband between the two cities. "The first time I came down here three years ago, I was quite shocked at the shortness of the skirts the Argentine women were wearing. But when I got back to New York a few months later I found American women had also shortened theirs."

"They have been wearing almost, knee high skirts in Buenos Aires for more than a year, but it was only on my last trip home this summer that I saw them as short in New York as here. Argentine women refuse to be behind anybody in dress and I think the Parisian style dictators, recognizing the opposition of the seasons, give them a six months advantage."

The dollar of December, 1914, now has a purchasing power of about 55.5 cents when spent on cost of living. In June a year ago it was worth about 46 cents.

## HURT ALL OVER

Texas Lady Couldn't Sit, Stand or Lie With Any Comfort. Says "Cardui Did World of Good."

Bartlett, Texas.—Mrs. Nannie Messer, of Route 3, this place, states: "About three years ago I was in a very critical condition. I had been suffering for some time. To tell how I hurt would be impossible."

"I just hurt all over. I couldn't sit, stand or lay with any comfort, my back, sides and head all gave me a great deal of trouble."

"I was especially bothered with a light swimming in my head. My people were very uneasy about me and sent me to my relatives to see if a change would do me any good."

"I stopped at a sister-in-law's and she being a great believer in Cardui, asked me why I didn't use it. I decided to try it."

"I had only taken a few doses when I felt it would do me good. This gave hopes and I used it right along and it did me just a world of good, since which time I have never ceased to praise Cardui."

Cardui is for simple female complaints and womanly pains and has been found to benefit in thousands of such cases when not due to malformation or that do not require surgical treatment. Try it. NC-136a

## NEW CASES ARE FILED FOR DISTRICT COURT

Late cases filed in the district court are: First National Bank of Ada, a corporation, vs. Gaston Dismales, et al, recovery of money; Francis National Bank, vs. Board of Education, Independent school district No. 3; Della Penny, vs. Claud Penny, divorce; Emile Gill vs. Emel Gill, divorce; Martha Harper vs. Gail Harper, divorce; W. T. Little vs. Board of County Commissioners; S. J. Sharkey vs. J. M. Brandon, appeal from justice of the peace court; Willie Cheba vs. George Cheba, divorce.

Greenland was discovered and named about the end of the 10th century by a Norseman, who established a colony there.

Dr. and Mrs. D. A. McKellar and Mr. and Mrs. Joe Cooper and son, Joe junior, from Ardmore were Thanksgiving guests of J. A. McKellar and family.

6. Missions in the Mountains—Anna Ford.

First Baptist Church.  
Our Sunday school begins promptly at 9:45. We have classes for all ages with splendid teachers. Last Sunday we had 545 present, which was a gain over the preceding Sunday.  
The Men's Bible class meets at the McSwain theatre at 9:30 with Dr. Laird presiding and Mr. Ellison teaching. This is a splendid class and all men are invited and will receive a cordial welcome. Come tomorrow morning and visit this class and we believe you will want to come back.

The pastor will preach the eighth sermon in the series on Baptists Beliefs at the 11 o'clock hour when the subject will be, "What Baptists believe about sanctification." This is a very much misunderstood subject in these days and we cordially invite you to come tomorrow and let's study it from a Bible standpoint.

The Junior B. Y. P. U. will meet at 6:30 with Misses Vera Grant and Rose Elliff in charge. They had thirty-eight present last Sunday.

Intermediates will meet at 6:30 with Mr. and Mrs. Tom Fullerton in charge. They had thirty-nine present last Sunday. All young people between the ages of twelve and sixteen are cordially invited.

The Blue and Gold Senior B. Y. P. U. will meet at 6:30. All young

people between the ages of sixteen and eighteen are invited to meet with them.

The Senior B. Y. P. U. No. 1 will meet at 6:30. All young people from eighteen up are cordially invited to come and join with them.

The pastor will preach an evangelistic sermon at the evening hour and an appeal made for decisions for Christ. We are delighted that people are being saved at almost every Sunday evening service. The ordinance of baptism will be administered at the close of the evening hour.

The public will find a hearty welcome at all our services and we will do our best to help you in all the problems and difficulties of life.

CLYDE CALHOUN MORRIS, Pastor.

Intermediate C. E. Christian Church.  
Song—Page 45—"Jesus Lives."  
Song—Page 6—"Brighten the Corner."

Sentence prayers.  
Song—Page 3—"Touch of His Hand on Mine."  
Scripture—Isa. 43:1-8.

Special music.  
What should be our attitude toward the immigrant?—Opal Qualls.  
What can we do for the foreigners?—Juanita Bennett.

What can our school do for the foreigners?—Zora Mae Frantz.  
What should be the attitude of the church toward the immigrants?—Katherine Williams.

Song—Page 125—"Little Stars." Business.  
Benediction.

Intermediate Endeavor Presbyterian Church.  
Leader—Ethel James Byrd.  
Topic—Christian Progress Among Immigrants.

Song.  
Scripture—Isa. 43:1-7.  
Prayer chain.  
Song.

Leader's talk.  
How are we helping the immigrants at Ellis Island?—Ed Gwin.  
Tell what you learned about the immigrants from the district convention.—Mary Patterson.

How many nationalities are represented in our town?—Bartley Meadows.  
What are their religious connections?—Harrie Lee King.  
What could we do for them?—Juanita Ford.

What happens to the immigrant when he lands at Ellis Island?—Stanley Dean.  
RICHARD ALLEN HATCH, Rector.

St. Luke's Episcopal Church.  
E. 14th St., off Broadway.  
First Sunday in Advent.  
Church school 9:45.

The rector's Bible class, started last Sunday, welcomes all who are interested.  
Holy communion and sermon 11:00.

The Parish Guild will meet on Monday, Nov. 28, at 3:30 p. m. at the home of Mrs. A. W. Parker, on S. Cherry St.

METHODIST CHURCH.

## Western Players Predominate On New All-American Gridiron Team

THE ALL-AMERICAN FOOTBALL TEAM OF 1921

By NORMAN E. BROWN

The selection of an All-American football team this year presents a complex situation that never has occurred before. In years gone by the west was wrongly classed as producing an inferior grade of football, generally, to that of the east. As a result only one or two scintillating stars of the west, whose work attracted prominence in the stories of these games, were given places on these All-American eleven.

This year the west unquestionably produced a better grade of football generally than did the east. The western eleven displayed more attacking power, as resourceful an attack, as good defensive play and much more consistent playing on the part of teams and individuals.

Westerners Predominate.  
To my mind western players deserve a majority of places, therefore, on this mythical team to represent the American colleges.

I believe "Whoops" Snively of Princeton and Brick Muller of the University of California are the greatest ends in the game today. Munns of Cornell approaches the nearest to their class. He might well replace either of them with little damage to the team. Myers of O. S. U. I would rank fourth.

Hanson of Cornell and Gulick of Syracuse at the tackles form a pair that not only are powers on defense but played an important part in the offensive work of their eleven. Hanson lead the east in kicking goals, his total reaching around forty. Gulick's plunges and his work in interference on the attack were outstanding features of Syracuse's games.

The west has the call on the guard position with Dunne of Michigan and Pixley, O. S. U. giant, crouched there. These two with Wallace of Iowa State at center and the two easterners at the tackles would give the team an impenetrable line and one that would raise havoc with the opposition's defense.

Greene of the Army and Larson of the Navy, both captains of their teams, make a strong bid for the center position, but I believe the plucky player from Iowa State has the edge. Baer of Penn State would be well fitted to sub for Pixley or Dunne.

Wealth of Backs.  
From the wealth of wonderful backfield men produced this year one could well choose four or five sets of backs that would hold their own against any opposition.

"Bo" McMillan, the man who led the astounding little Center college team, is without a doubt the greatest field general of the present day. Critics who saw him lead of defensive and offensive play against Harvard which resulted in Harvard's first downfall in five seasons, agreed that he showed superior

skill in handling the team. Second only to McMillan stands out Audrey Devine of Iowa—the west's greatest quarter. Killinger of Penn State ranks third.

For halfback possibilities we have besides Aldrich of Yale and Lightner of Penn State:

Garrity and Gilroy of Princeton. Kaw of Cornell. Alvah Elliott of Wisconsin. Johnny Kyle of Indiana. Stuart of O. S. U. Mohardt of Notre Dame.

Owen Deserves Praise.  
Aldrich's versatility, including his booting ability, as well as his generalship, gives him the call at one half. Lightner of Penn State, I believe, ranks ahead of even the great Mohardt, Garrity or Gilroy, both stars of their teams.

Locke of Iowa stands out above all the eastern fullbacks. Had Owen of Harvard played the major portion of the season at full I believe he would have made a position. Owen ranks as one of the best all round players of the season.

Miller.  
Music—Mrs. Schreiber. Business.

Bring November copies of W. W. and H. M. W. Answer roll call with articles that interests you most.

Christian Science.  
Services at 11 a. m. at 111 North Broadway. Subject: Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism Denounced. Golden Text: Jeremiah 15:21. "I will deliver thee out of the hand of the wicked, and I will redeem thee out of the hand of the terrible."

Sunday school at 10 a. m.

Oak Avenue Baptist.  
Subject—Home Mission Schools. Leader—Cecil Smith.

Part 1: Why mountain schools? Loyd Snead.  
Part 2: Erroneous opinions of the mountain people.—Mr. Warr.  
Part 3: Some centers of culture.—Mr. Harrison.

Equitation Practice For Ada Battery To Be Started Monday

Battery F, Oklahoma National Guard, stationed at Ada, will hold its first equitation practice at the Fair Grounds next Monday, according to an order issued by Captain Robert Kerr today, informing the members of this company that they will be expected to be out and learn something of the art of handling a horse.

### THE ALL-AMERICAN TEAM

As selected by Norman E. Brown

FIRST TEAM SECOND TEAM  
SNIVELY, Princeton left end MYERS, Ohio State  
HANSON, Cornell left tackle CAPPON, Michigan  
DUNNE, Michigan left guard VOGEL, Michigan  
WALLACE, Iowa State center LARSON, Navy  
PIXLEY, Ohio State right guard BERQUIST, Nebraska  
GULICK, Syracuse right tackle HUFFMAN, Ohio State  
MULLER, U. of Cal. right end MUNNS, Cornell  
McMILLAN, Centre quarterback A. DEVINE, Iowa  
ALDRICH, Yale left halfback OWEN, Harvard  
LIGHTNER, Penn State right halfback ELLIOTT, Wisconsin  
LOCKE, Iowa fullback HEWITT, Pittsburg

Michigan and Pixley, O. S. U. giant, crouched there. These two with Wallace of Iowa State at center and the two easterners at the tackles would give the team an impenetrable line and one that would raise havoc with the opposition's defense.

Greene of the Army and Larson of the Navy, both captains of their teams, make a strong bid for the center position, but I believe the plucky player from Iowa State has the edge. Baer of Penn State would be well fitted to sub for Pixley or Dunne.

Equitation Practice For Ada Battery To Be Started Monday

Battery F, Oklahoma National Guard, stationed at Ada, will hold its first equitation practice at the Fair Grounds next Monday, according to an order issued by Captain Robert Kerr today, informing the members of this company that they will be expected to be out and learn something of the art of handling a horse.

An invitation is also extended to the public for all who care to come out and watch the operations. It is expected to be of considerable interest as well as amusing to see the various privates try their hand in this new work.

The Ada Weekly News reaches almost every farm home in the county. Are you taking advantage of this effective means of getting your message abroad? What do you have to sell to farmers? Try it.

**C. OF C. MOVE IS APPROVED BY LEADERS**

(Continued from Page 1)  
disappointments. She hoped that the community would prove to be an Isaac Newton and do something about it when the apple of adversity fell on its head. Many people and many communities when they are so hit, just move to one side. She believed that Ada would do better than that. This plan, as was outlined, seemed to her the right one, and she believed it would have the support of the women of Ada as every other movement for the good of the city has had.

Prof. Hickman warmly endorsing the movement and the plan, said that men build cities by united effort. Ada has unlimited possibilities but she is not realizing them because she does not get together about them, or adopt a program. Ada has been spinning around on its nose for a long time. It is time to change this. The plan had his endorsement.

Wadlington Wages Action  
County Attorney Wayne Wadlington said Ada can get what she needs if citizens go after it unitedly and heartily. For years now, he said, we have not had united effort in Ada.

"Political and social feuds are splitting the city apart. If we don't look out we shall begin shooting each other and that will kill the town as well as its people," he said. Of Ada's needs he suggested a Y. M. C. A. building, gymnasiums at the high school and the Teacher's College, a court house, and better roads. These things and prosperity Ada can get if she unites to get them.

"Men with grit and brains have settled on barren rocks and built great cities," Wadlington asserted. The plan was adopted unanimously, and an executive committee elected. The executive committee will meet at the Chamber of Commerce rooms Monday evening, at 7:30 to organize.

During the meeting pledge cards were passed out asking for signers to agree to serve on the membership team during the intensive drive the week of December 12. Sixty-four of these cards were signed, making about 90 percent of the necessary number for the team organization planned, and assuring the success of this feature of the movement at the very outset.

**TULSA UNIVERSITY AFTER SLICE FROM FOUNDATION FUND**

TULSA, Nov. 26.—Officials of the University of Tulsa are making an effort this week for \$250,000 from the Rockefeller Foundation. The money asked is to be made a part of the \$2,000,000 endowment fund the institution now is raising.

Dr. J. M. Gordon, president of the university, now is in New York City, accompanied by Ira L. Reeves, manager of the Tulsa Chamber of Commerce, making the request for the money and presenting data to the general educational commission of the foundation showing the work the university has done and the plans for the future.

The Oklahoma Central college, soon to be built here by the Southern Methodist church of this state, also expects to get aid from the Rockefeller foundation. However, that aid is not being sought at the present time. The organization for the college has just been completed and it is probable that the building of several buildings will be put through before aid from outside the state is asked for the \$5,000,000 endowment fund the college officials hope to raise.
